

# HEATSHIELD

## PANELS

### HeatShield – Data Sheet

### GENERAL PRODUCT INFORMATION

HeatShield is a revolutionary designed product that does not require a top coat. When combined with ComfortTile heating cables, HeatShield provides the perfect solution for quick and easy installation of electric floor heating under engineered wood or laminate floors. The combination of an insulating subfloor and a heat-conducting surface ensures optimum heat reflection upwards.

#### Features Include:

- ◆ Best solution available for heating under laminate and engineered wood flooring
- ◆ Save time, no mixing thin set or mud required
- ◆ Reflective plates heat quickly and evenly for maximum comfort
- ◆ High R-value insulation significantly reduced energy consumption
- ◆ Exceptional for concrete floors, especially basement renovations
- ◆ Built for ComfortTile heating cables

#### HeatShield Panels

The simple installation using HeatShield panels combined with ComfortTile cables makes any installation quick and effortless.
