

## WARMZONE Hydronic Radiant Heat Solutions

### P R O D U C T B R O C H U R E

# Hydronic Radiant Floor Heating and Snow Melting Solutions

Warmzone is a nationally recognized authority in the design and installation of hydronic radiant heating and solar hot-water systems. The products and services that Warmzone offers are based on extensive training and years of field experience. Warmzone is customer focused, consultative and unbiased in its product offerings, mechanical engineering services and installation approach. By utilizing Warmzone's dedication and expertise, you can be confident in a complete and seamless radiant heat solution.

## Warmzone Offers Unmatched Service, Product Selection and Support

### Preeminent Consulting and Analysis

Warmzone provides free, no obligation consulting services by experienced professionals to ensure that you'll receive a thorough, upfront analysis of your project. We evaluate every aspect of the system to offer the best, complete solution to meet your specific needs.

### Wide Selection of Proven Products

Unlike many radiant heat manufacturers and distributors that carry only one brand or limited product lines, Warmzone offers a wide selection of the industry's most reputable solutions – all at competitive pricing.

Warmzone hydronic system components are at the top of their class, so you can be assured that your radiant heat system consists of the most trusted components. From boilers and manifolds to pumps and controls, your system will consist of the very best in each category.

### Complete Design and Engineering Services

You will receive a comprehensive set of engineering drawings that accurately describe each component of the system and give you a visual perspective on every key process, such as:

- Tubing installation (spacing, sizing, lengths)
- Manifold Placement
- Under Slab Insulation
- Distribution Line Installation (size, lengths)

### Mechanical Equipment

- Boiler Systems
- Pump Boards
- Pipe Configurations
- Controls

### Unmatched Installation Support

In addition to access to mechanical engineers and electricians, you can request an experienced radiant heat installer to come to your location and supervise the installation. Or, for a complete turnkey solution, you may request for Warmzone to provide an entire hydronic installation crew.

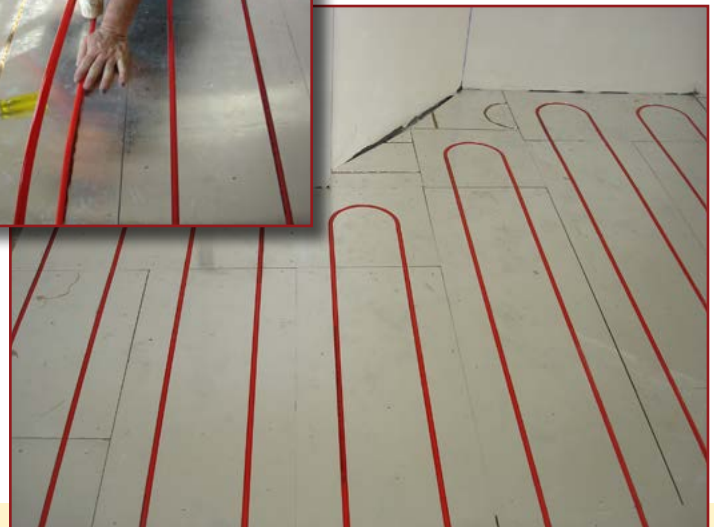

### The Radiant Heat Information Authority

By complementing its wide selection of superior products with unmatched customer service and engineering expertise, Warmzone has proven to be the comprehensive radiant heat authority, and a trusted leader of radiant heat solutions.

Warmzone's goal is to provide the most comprehensive and objective radiant heat information resource on the Internet ([www.warmzone.com](http://www.warmzone.com)). In addition to the wealth of information online, Warmzone will also provide you with the latest up-to-date product documentation.

# Warmzone Leads the Way

The professionals at Warmzone are among the most knowledgeable and customer service oriented experts in the business. Our commitment to service, which includes unparalleled installation support, is just one reason why building professionals repeatedly choose Warmzone for all their radiant heat projects.

*"By working with Warmzone, I feel like I have the best radiant heat partner working with me, so I never feel alone during the installation process. The designer, engineer and electrician are always there for me if I have any questions or needs. Their expertise ensures that the installation goes smoothly and the customer is satisfied."*

David Veron - Veron Landscaping

Whether you're a contractor with large, commercial construction needs or a homeowner considering radiant heat for a small bathroom floor, you'll be treated with respect and urgency by one of our experts.

## Summary of Benefits

**Industry-leading Consulting Services**

**Wide Selection of Proven Products**

**Complete System Design and Engineering**

**Unmatched Installation Support  
(Including the option of onsite assistance)**

**Comprehensive Information Resource**

Warmzone is committed to providing the best customer service in the business. You can be confident that the system design and components are among the very best in the industry. We have worked hard to earn our reputation as a trusted leader and we take pride in the national awards we have received:

First Place System Showcase (16+ zones\*)  
- Radiant Panel Association

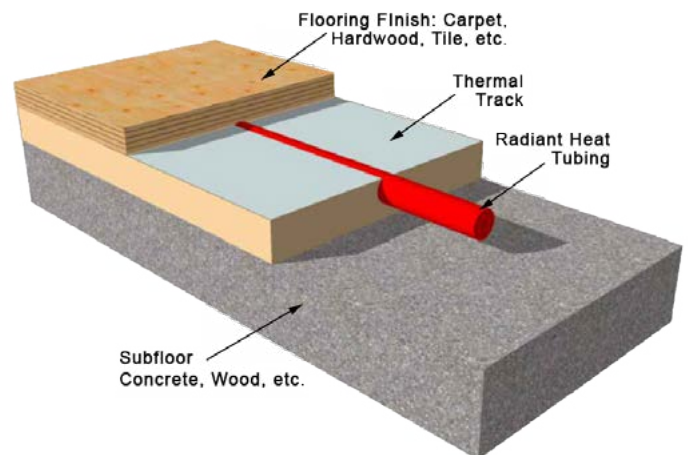

Second Place System Showcase (Simplicity)  
- Radiant Panel Association

From our wide selection of proven products to unmatched design, engineering and support services, Warmzone is the premier radiant heat solutions provider. We're confident that if you compare prices, product quality and customer service, you'll choose Warmzone.

\* A zone is considered any area that is heated by a single thermostat. Each room (zone) of a radiant floor heating system is controlled by its own thermostat, which is one reason why radiant heating systems are so efficient.

NOTE: The best price per square foot is obtained when maxing out the system (heating the largest area possible per system).

Example of a Hydronic Floor Heating System

## Your Complete Radiant Heat Solutions Provider

### Residential, Commercial and Industrial Radiant Heat Applications

#### Residential Snow Melting

- Heated Driveways
- Porches and Steps
- Ramps and Entry Ways
- Sidewalks, Patios and Walkways
- Parking Areas
- Portable Snowmelt Solutions
- Custom Snow Melting Solutions

#### Radiant Heated Floors

- Radiant Heat for all Types of Floor Surfaces
- Retrofit Systems for Heating Existing Floors
- Hydronic and Electric Floor Heating Solutions
- Low-voltage Systems

### Warmzone Services and Capabilities

- Free Professional Consulting (888.488.9276)
- Complete System Design and Engineering
- Industry-leading Customer Service
- Post-sales Technical Support
- Installation Support
- Free Quotes
- Comprehensive Online Information Resource ([www.warmzone.com](http://www.warmzone.com))

#### Commercial Snow Melting

- Critical, High-traffic Areas
- Transit Platforms
- Ramps and Loading Docks
- Sidewalks and Parking Areas
- Helicopter Pads
- Custom Snowmelt Applications
- Hydronic and Electric Snowmelt Systems

#### Roof Heating Solutions

- Complete Roof Deicing Systems
- Gutter Melt and Downspout Heating
- Roof Edge (Panel) Heating
- Hydronic and Electric Roof Heating Systems
- Low-voltage Roof Heating
