SCK-1
Snow Cable Kit

Description

The SCK-1 snow cable kit is designed for terminating self-regulating heat cables into a watertight junction box (customer supplied) through a CGB gland. The kit comes with heat-shrink tubing to isolate each conductor including the ground braid. The SCK-1 is ideal for use in roof and gutter applications and comes with wire nuts for connecting to service leads.

Contents

- 1 - ½-inch Steel CGB Gland
- 2 - Heat Shrink (Conductors)
- 1 - Heat Shrink (Ground)
- 1 - Small Heat Shrink
- 1 - Large Heat Shrink
- 2 - Wire Nuts (Conductor)
- 1 - Wire Nut (Ground)

Applications

- Constant Wattage Heater Cables
- Self-Limiting Heater Cables
